

Seraqua™

Ultra-light O/W serum base

Seraqua™

Seraqua™ is an ultra-light O/W serum base with an innovative and elegant formulation. It is ideal for application on the facial area. The presence of silicones guarantees hydration and skin protection without an occlusive effect. Seraqua™ is specially designed to incorporate high concentrations of active pharmaceutical ingredients (APIs) and dermaceutical ingredients (DCIs). Due to its excellent spreadability, only a small dispensing quantity is required. This skin-friendly serum suits the needs of oily, balanced and dehydrated skin. Designed according to the latest insights into topical vehicle safety and tolerance, Seraqua™ is free of harmful, obsolete and controversial ingredients.

Benefits of Seraqua™

- Innovative hydrophilic serum base
- Elegant, ultra-light skin feel
- Especially recommended for facial area, including the eyebrows and eyelids
- Excellent spreadability and readily vanishing
- Hydration and skin protection without an occlusive effect
- Non-comedogenic
- Especially suitable for oily, balanced, dehydrated skin and specific skin areas
- Ideal compounding vehicle for a broad range of high concentrations of APIs and DCIs
- Simple three-step compounding process

Fagron Advanced Derma

Leading advanced dermatological care

With Fagron Advanced Derma, patients are guaranteed a total solution for both customized prescription compounding and basic skin care based on:

- Vehicle design according to the latest scientific insights into the safety and tolerance of topically applied ingredients
- Different bases for different skin types
- Suitability for vulnerable, sensitive skin
- Optimal compatibility with a broad range of APIs and DCIs
- A formulary containing different formulations for easy prescribing and compounding by indication

Total solution

Discover Fagron Advanced Derma's total solution by accessing the various information resources:

- Fagron Advanced Derma brochure
- Indication brochures
- Vehicle brochures
- Compatibility table
- Quality documents
- Compounding Matters formulations database
- Fagron Academy
- Fagron formulations app

Compounding and basic skin care with Seraqua™

Fagron Advanced Derma offers a total solution for:

- Customized pharmaceutical compounding
- Basic skin care

Ensures continuous care for the skin during the exacerbation and maintenance phases and guarantees maximum patient comfort for optimal compliance and results.

Seraqua™ is recommended with the following APIs and DCIs:

API/DCI	Common concentration(s)	API/DCI	Common concentration(s)
Alfatradiol (17α-estradiol)	0.025 to 0.05%	Kojic acid	1 to 4%
Aloe vera extract	0.5 to 10%	Lactic acid	1 to 20%
Alpha bisabolol	0.5 to 1%	Latanoprost	0.005%
Ascorbic acid (vit. C)	5 to 10%	Lidocaine HCl	0.5 to 10%
Caffeine	1 to 2%	Melatonin	0.0033 to 0.1%
Chamomile extract	0.5 to 5%	Menthol	1 to 3%
Clobetasole propionate	0.05%	Metronidazole	0.5 to 3%
Cyanocobalamin (vit. B12)	0.07%	Minoxidil	2 to 5%
Dexpanthenol	0.5 to 5%	Nicotinamide (vit. B3)	2 to 5%
Diclofenac sodium	3%	Retinol (vit. A)	0.4%
Finasteride	0.1%	Sodium hyaluronate	1%
Glycerol	0.5 to 20%	Tocopherol (vit. E)	0.5 to 20%
Glycolic acid	5 to 15%	Tretinoin (vit. A acid)	0.01 to 0.1%
Ketoconazole	2%	Urea	5 to 40%

Please refer to the Fagron Advanced Derma compatibility table for more vehicle and API/DCI combinations.

Compounding formulations for Seraqua™

Alopecia areata Latanoprost 0.005% in Seraqua™ Fagron eyelid applicator	Ageing skin Retinol (vit. A) 0.4% in Seraqua™	Ageing skin Sodium hyaluronate 1% Nicotinamide (vit. B3) 4% Lactic acid 8% in Seraqua™
Actinic keratosis Diclofenac sodium 3% Sodium hyaluronate 1% in Seraqua™	Acne rosacea Tretinoin (vit. A acid) 0.05% Aloe vera extract 5% in Seraqua™	Hyperpigmentation Glycolic acid 8% Nicotinamide (vit. B3) 4% Alpha bisabolol 0.5% in Seraqua™

For an optimal mixture of solid APIs and DCIs in Seraqua™, add q.s. of one of the following wetting agents: water, glycerol, propanediol or sunflower oil.

Please refer to the Compounding Matters database at fagron.com for more formulations.

Fagron eyelid applicator

The Fagron eyelid applicator is ideal for application of Seraqua™ to the eyelids and eyebrows. The design is of pharmaceutical quality: no fiber detachment, no additives, no metals and no glue.

Basic skin care and maximum patient comfort with Seraqua™

The innovative formulation of Seraqua™ is ideal for basic skin care for oily, balanced and dehydrated skin. Seraqua™ also offers maximum comfort for treatment of difficult-to-treat specific skin areas, such as the eyelids and eyebrows.

- Oily skin
- Balanced skin
- Dehydrated skin
- Specific skin area

Time-saving, simple three-step compounding method

1. Calculate and weigh each ingredient.
2. Reduce all powder(s) to uniform, fine consistency. Levigate the powder with suitable solvent.
3. Geometrically add sufficient Seraqua™ to final weight and mix well.
